Comprehensive Needs Assessment

Baskin School conducted a comprehensive needs assessment based on test data, including LEAP and other test data, attendance rates, dropout rates, high school completion rates, and ACT data. Other sources used in the comprehensive needs assessment were parent involvement records, safe and orderly school climate evaluation, federal program guidelines, and district policies. Data were disaggregated for all student groups served on the campus, including categories of ethnicity, socioeconomic status, gender, and all populations served by special programs. Individual student's strengths and weaknesses were identified by disaggregating LEAP data by grade levels, subject areas, and objectives. Because our campus exceeds 40% economically disadvantaged students, we are classified as a Title I Schoolwide campus.

Needs were identified in the six areas of planning, curriculum/instruction, staffing, staff development, school organization, and budgeting, and goals were focused on the Effective Schools Correlates (Instructional Focus, High Expectations, School Climate, and Parental Involvement).

Surveys were disseminated to faculty, staff, and parents, including business and community representatives serving on the Schoolwide Planning Committee. The Schoolwide Plan for the 2018-2019 school year was reviewed and revised based on the achievement of specific goals and objectives. As a result, the 2019-2020 Schoolwide Plan includes all identified priority needs.
